## Château Bertrand Braneyre – 2000

---

### WEATHER CONDITIONS

The vines started budding early and began to flower in the first few days of June.

The warm weather in August and September allowed the grapes to mature splendidly.

### THE HARVEST STARTED ON OCTOBER 2

From the very start of the harvest, the wine produced, richly coloured, powerful and robust, made it clear that 2000 would be an excellent vintage.

### TASTING NOTE

- A lovely carmine colour with orange highlights.
- The nose reveals notes of prune, candied cherries and underbrush
- On the palate : Notes of very ripe red fruits. A lightly acidic taste which combines well with its slight nutty, buttery and toasted notes.
- Full-bodied and flavourful without aggressive tannins. Elegant and persistent aftertaste.
